+44 (0)115 976 6052

Mark is a Partner who specialises in construction and engineering and provides advice across the entire lifecycle of a project. This includes front end project / contract support using most of the industry standard form contracts, live support and assistance during the course of a project and advice on the resolution of disputes including through the use of mediation, adjudication, litigation and arbitration.

Mark has extensive experience acting for employers, developers and contractors on high profile projects across a range of sectors including retail, utilities, highways, logistics, PRS and healthcare. In 2016, Mark completed a nine month part-time secondment working in-house with Mace Limited on both domestic and internal construction projects.
