

How should academy trusts be preparing for procurement reform?

16 July 2024

This webinar took place on Tuesday 16th July and is now available on-demand.

When schools return in September there'll be less than two months to get everything in order for the Procurement Act 2023 going live on 28 October 2024. The new act brings significant reform, so the sooner you prepare, the better. That's where we can help.

During this session, we explain the changes and take you through the practical steps you need to take for your school or trust in readiness, including changes to your documents, planning for new procurement, and getting the proper sign-off of changes to policies and procedures.

The on-demand webinar is free to attend, open to all and is presented by our expert procurement and school governance lawyers. As always, we focus on practical guidance and provide the opportunity to find out more about what it means for you and your organisation.

Our in-person and online events are designed exclusively for clients and targets. As such, we reserve the right to cancel bookings. If you'd like to speak to a member of the team regarding your attendance, please [contact us](#).
