

Care Focus: Critical incident - Inquest

📍 Webinar

📅 12 May 2025

Our first [lunch-time programme](#) explores the aftermath of a critical incident in a care setting, taking you from the crucial first 48 hours through to consider in more detail the regulatory, employment, risk, PR and wider considerations.

Whenever there has been an unexpected death, there will be an inquest. Assistant Coroner, [Fiona Butler](#) gives us a coroner's perspective on the inquest process helping your organisation to prepare for judicial scrutiny. Inquest barrister [Sarah Vince](#) explains how evidence can have implications for other criminal investigations, professional registrations and in civil proceedings. This session aims to help you understand the wider implications of an inquest, so you have this at your fingertips should the unexpected happen.

This webinar is free of charge and exclusively for [independent health and care](#) providers and their [insurance sector](#). It would benefit anyone working in the [health and care sector](#) including senior leaders, executive and non-executive directors, heads of legal and in-house legal services, risk and complaints teams, registered managers, inquest and claims managers, safety and learning practitioners and colleagues involved in the management of investigations.
