

## In-House Lawyers - 9th June 2020

On demand webinar, focusing on practical solutions to utilise from home in agreements and dealings with business contract law, employment and covid-19.

10 June 2020

*This is now available on-demand.*

As you might expect – our regular in house lawyer sessions aren't happening for obvious reasons. No doubt you're dealing with some of the issues around the current disruption – working from home, issues with suppliers, landlords, employees and their entitlements and getting funding for the business – no doubt that's on your desk right now. But here's the thing – it won't always be. In a few months' time, you'll hopefully still be dealing with legal issues, but some of those will have moved on.

For that reason – to be up to date on what's changed we'd encourage you to dial into an alternative virtual couple of sessions – dealing with the changes in the law that you'll still need to know about. Book on now and relax knowing in the future (post-pandemic) you will still have the skills you need to survive in the marketplace.

- An update on contract law – changes to drafting (as well as how to extract yourself if you need to) – [Richard Nicholas](#)
- Employment changes – including the short and longer term effects of Furlough – [James Tait](#)

The sessions focus on practical solutions that you can utilise from home in your agreements and your dealings with business.
