

EdCon 2025

📅 03 March 2025 to 28 March 2025

Join us in March 2025 for our fifth online EdCon conference. This year we're pleased to announce a 4-week event which will provide you with the opportunity to join online workshops, listen to our experts via on-demand sessions and read thought-leadership articles on topics such as innovation, collaboration, creativity, and development in education.

This year, EdCon will focus on four dynamic streams: horizon scanning, collaborating and connecting, creativity and "out of the box" thinking, and developing people. Each stream has been designed to inspire, challenge, and empower educators, innovators, and thought leaders.

Topics within these themes will explore the impact of AI and government changes, how to foster creativity and collaboration across sectors.
